Dear mamma + papa : I
received your letter tonight
and thought I would answer
it tonight. Last night we
went over to Uncle Bens and
set our traps for the woodchuck.
Aunt Jules night blowing
scris opened while we were
there and it was very beautiful
I wish you could have been
there to have seen it, as yet
we have not found out
whether we have caught the
woodchuck or not. This after
noon we went down and

had our waists fitted.

The weather is very cold and we had to build a fire in the stove.

We were fishing this morning and caught nine. I wish you was home to help us eat them.

I am succeeding very well with my camera.

do not worry but enjoy your self and have a good time

Your loving son,
Albertus C. Van Raalte.
