Dear Sir:-

We have your favor of the 25th and in reply wish to say, that \$2.20 per net ton at the mines is the very best price at which we can ship you Smokeless Egg coal. At present Smokeless mine run coal, to contain not more than 40% coarse coal at the outside, will cost you \$1.25 per net ton f. o. b. mines. This price is only for immediate acceptance, as the mines are advancing their price to us from day to day. We would like to make you a price same as in effect at time our salesman saw you, but it is absolutely out of the question on coal of that character.

Trusting we will hear from you by return mail with an order, which will have our best attention, we beg to remain,

SAF-EMcD.

Yours very truly,

General Manager.
